

# Champions AI Sheet

Type : Gaea, the Minervan AI

Value	Statistic	Points
38	Intelligence	28
23	Ego	26
23	Dexterity	39
8	Speed	47
Total		130

OCV (Dex/3) : 8+  
 ECV (Ego/3) : 8+  
 Int Roll (9+Int/5) : 17-  
 Ego Roll (9+Ego/5) : 14-  
 Dex Roll (9+Dex/5) : 14-  
 Per Roll (9+Int/5) : 17-

Phases : 2 3 5 6 8 9 11 12

Total Points = 130 + 346 - 130 = 476 - 130 = 346

Point Cost as a Follower : 69

Note as a fully sentient entity created by an ethical individual (the Amazon) Gaea does not have any Programs. Instead she (as she is considered to be) has control of herself in these matters, as a human would.

This is Gaea as she is in 1993.

Powers/Skills	Pts
22 points Mental Defence	17
50% Resistant Mental Damage Reduction - distributed systems	30
Clairsentience with Normal Smell, All Sight, All Hearing, All Radio, 256 x Range (345.6km), 0 End, Immobile IIF, Only in Places with Appropriate and Accessible Sensors (-1/2)	49
Multiform : Human-form robot; 5 minutes Delay (-1), Leaves 'Body' Behind (-1), Concentrate 0 DCV Throughout to Change (-1) - 300 points plus disadvantages	15
Absolute Time Sense, Ambidextrous	3,3
Bump of Direction, Eidetic Memory	3,10
Lightning Calculator,	3

Gaea is distributed across the nation of Minerva in a large number of (mostly hidden) high security, well-armoured sites, linked together by both the normal Minervan communications infrastructure and dedicated high-bandwidth links, all of which are protected by high levels of encryption. Externally her components appear much the same as those of any other supercomputer system. Each Gaea site has its own long-duration emergency power supply and backup communications systems, as well as data storage and encryption systems. Gaea generally monitors her own security and that of the facilities containing her nodes. Because many of her sites were made by Gaea herself using remote-operated robots, even the Amazon does not know the location of all of them. Only Gaea herself knows them all.
