Jean-Luc was raised in a Parisian orphanage and knows nothing of his real parents. His high intelligence allowed him to talk his way out of the inevitable trouble he had, but on one occasion he was pushed down a set of stair and broke a number of bones, giving him a permanent limp. As soon as he could he ran away from the orphanage and became a member of a Parisian streetgang. The gang got on the wrong side of some criminals when Jean-Luc was eleven. When the criminals turned up to punish the gang members Jean-Luc suddenly manifested psionic abilities which soon drove the criminals off. They then gave an anonymous tip-off to the French government, who sent hunters after him. The Psionic resistance rescued Jean-Luc from these hunters and recruited him. His youth, enthusiasm and genius-level intellect soon put him in good stead with the resistance, although it does cause problems by making him rush headlong into danger thinking he'll be able to think his way out. He was trained in communications skills by the resistance and moved to England when the French government raided the Resistance's Parisian base in the Catacombs. He met Emily Ryan (Tyche) in England; she was very nice to him and trained him in medical skills. Because of her kindness Jean-Luc secretly regards Emily as the mother he never had.

Jean-Luc is young, enthusiastic and somewhat vain. He has an impish sense of humour and disrespect for authority which he often combines in practical jokes. He is small and wiry with dark hair and sparkling dark eyes. He is quite handsome and can be reasonably polite and charming when he wishes to be.
